James Chao, 91, studied navigation in Shanghai. His schoolmate was Jiang Zemin, who became the head of China's Communist Party. They met at least 6x inside Zongnanhai, the Communist party's secretive leadership compound.

As China was emerging from decades of turmoil in 1984, the Chao family took a stake in a state-owned Chinese manufacturer of marine electronic equipment, documents show. The company targeted sales to China's military, among other sectors, and was closely affiliated with a ministry run by Mr. Jiang. After Mr. Jiang came to lead the Communist Party a few years later, Mr. Chao met with him at least six times, including in August 1989 in Beijing — inside the party's secretive leadership compound. Chao family members said they could not recall this investment.

🔥 [@ElaineChao](#) was a board member of the Birmingham, AL based Protective Life Corp., w 7,000 shares, which is associated with China Resources Holdings Co., an intelligence-gathering front for China's PLA... but that's not all 📌

In 2007, "just as the U.S. Senate was taking up sensitive legislation concerning China," the Chinese govt's CSSC Holdings, Ltd.—the financial arm of the Chinese govt's military contractor CSSC, named Elaine Chao's dad and sister Angela to its board. 🤖

🔥 CSSC is a sensitive, critical asset of the Chinese government and operates under a veil of privacy and secrecy." Its MAIN goal is to strengthen the Chinese Military. But [@senatemajldr](#) heads the Senate and [@ElaineChao](#) is Secretary of Transportation!!

“The fact that both the father-in-law and sister-in-law of Senator McConnell sat on the board of CSSC Holdings is highly unusual, to say the least,” writes Schweizer. “One could say it is unprecedented in American political history. In general, CSSC is a sensitive, critical asset of the Chinese government and operates under a veil of privacy and secrecy.”

Conflicts!?! [@senatemajldr](#) must be so proud of his sister in law! In June 2016, Angela Chao was appointed as independent director of the Bank of China. China’s bank just opened \$35B financing for Iran. How does this effect Mitch’s politics 😬
