Transnational organized crime is reliant on the subjugation of others. Including/especially undocumented workers.

Why do evil mobsters prefer undocumented workers? Aside from being able to hang on to as much money as possible by not paying them adequately, to sociopathic mobsters, undocumented workers are expendable.

When you're constantly doing, saying and dealing in horrible, illegal things, you want someone who isn't documented witnessing that shit. If they pose a problem, remind them of their status, or worse. And no one will know.

Trump's no stranger to using undocumented workers. What we're hearing about his clubs is nothing new at all. He's been doing it for decades.

U.S. Investigates Work at Pacific Island Casino Project With Trump Ties

Officials say contractors illegally hired Chinese workers in Saipan, part of an American commonwealth, to build a casino overseen by a former Trump protégé.

Transnational organized crime is also reliant on free flow of drugs and other horrible things through our borders. Trump's also no stranger to that.

The Drug Trafficker Donald Trump Risked His Casino Empire to Protect

The Donald and his sister, federal judge Maryanne Trump Barry, both took helicopter flights with a guy who had a lot of ways to get people high.

If you're a mobster tool in the Whitehouse, how to keep up the flow of undocumented workers, drugs, and whatever else you need, but not be obvious about it?

Use your disinformation machine to promote something useless, that sucks resources away from actually doing anything about undocumented workers and trafficking (of drugs, humans, weapons).

Use your machine to drown out any meaningful discussion about actual solutions. Drown out the experts.

Use your machine so that if people wanted to find out about crimes committed against undocumented workers, you find disinformation about the opposite.

Use your machine to demonize them, just to be safe. Make the undocumented workers feel that, in addition to law enforcement, they couldn't even turn to a civilian for help. Make them feel that no one can be trusted. Bolster this with as many "viral" active measures as possible.

On top of all that, use the ridiculous thing to do all this:

I think it's safe to say that the stupid thing rhyming with "ball" isn't even about actually building anything.

Keep your "base" in line by hiring as many undocumented people as possible, driving down wages for the entire country. Make your base poor and desperate. Then blame the undocumented people you're hiring in droves, and throw them out as red meat for your "base."

As I said, these f*ckers like to multitask.
